The 7th Album in Kim’s career, starting off from a Rocker Chick she has evolved into one of the TOP POP artist out there. ‘No Regrets’ is Cameron’s the current album, has a mixture of dance

and what she calls 'dance groove' recordings. "I wanted to Record something that sounded fresh, that people could dance to, but could also just Hang," explained Cameron. She brought in some heavy hitters when it came to the Remixes including London's Wide boys, the USA's DJ Riddler, and Germany's own Tom Novy. Staying true to her need to write about love, each song about new, old and even hard relationships. Vocals on the album hit new ranges for Cameron with harmonies that add the right layers to the exact right places. Big builds throughout each record along with memorable hooks but limited synth melodies with more emphasis on the bass line. For more info on KIM just check out her official WIKEPEDIA
