

“Burning” by Kim Cameron & Side FX

Kim Cameron and Side FX are the artists that conclude this edition of *Jake's Take: New Music Reviews!* Since she made her debut in 2008, the Miami Beach, Florida-based singer-songwriter has found success on the *Billboard* charts and her music has appeared on multiple cable networks such as **Bravo, Discovery, FOX Sports, and MTV.** “Burning” is a hypnotic track that will have listeners think that this was either a Madonna and Kylie Minogue B-track. Ms. Cameron beautifully seduces listeners with her lovely vocals and this track would be perfect for radio. A-
