## “Not Into You / A Little Bit in Love” mashup by Side FX

After [Side FX](#)'s 2008 debut album, *Contradictions*, music bloggers and multiple radio stations across the country sung their praises. Eventually, American Airlines picked up three singles for their in-flight radio. Their second installment, *Turning Point*, donned stellar production from hit making producers and snagged a position on the College Music Journal charts. Their third album, *The Blond Side*, leaned more toward the mainstream genre.

The most recent double single EP, *Still Spinning*, is now available on iTunes. The first track “A Little Bit in Love,” is carried by the airy and sensual tone of front lady, Kim Cameron. The second cut “Not Into You,” is a pleasant departure and contrary from the first single as it speaks to the feeling of not pursuing someone. In addition, the EP contains a mashup of both tracks.
